Strumenti adatti a uso battere-ritiro (battering & not driven into work) con presenza di rischio di esplosione del materiale con estrazione.  
 L'uso di questi strumenti per battere o estrazione può causare esplosione.  
 Beta professional tools cannot be used in contact with explosive or with devices that produce or contain explosive.  
 Explosive can react with the copper alloy tool and produce major damage, rupture/ and even dangerous explosion.
